13ft x 13ft
Inflatable Canopy

Ratio 1:2

Open this PDF in Adobe Illustrator and place your vector artwork in the designated 'Artwork' layer of this document.

To avoid any unwanted alterations to your artwork, please ensure all text & strokes are **outlined**.

If your artwork contains raster files (eg JPGs), please provide them in as high a resolution as possible. They must be at least **100dpi** on this template to avoid significant pixelation. Please ensure images are either embedded into this document or provided separately.

If necessary, you can reduce the file size by saving this document as a PDF and unticking 'Preserve Illustrator Editing Capabilities' in the save options.

We request that you provide us with **Pantone** references in order for us to achieve the closest possible match to your brand colours. Please be aware that slight colour variation may occur in the printing process.

There is no requirement for bleeds, but it is advised that any essential elements such as text & imagery are kept away from the panel edges to allow for stitching.

All text & strokes must be outlined.

Any pixel-based artwork must be a minumum of 100dpi at 50%.

Please provide Pantones for any block colours.

Frame Colours

Black	White

Lining Colours

Black	White
Blue 7687c	Red 186c
Yellow 108c	Dark Brown 412c
Orange 165c
